Solar Savings are Adding Up!

Our solar panels continue to make a meaningful difference - both environmentally and financially. In August Fairmount saved **\$928 in electricity costs** thanks to the power generated by our solar panels. During the month, we used a total of 9,025 kWh of electricity: 5,139 kWh generated by our solar panels plus 3,866KWh purchased from First Energy.

From May through August, our solar panels helped Fairmount avoid **\$4,202 in electricity costs**. Year to date, Fairmount avoided electricity costs by an impressive **\$6,472!** Every kilowatt-hour generated by the sun helps reduce our electricity expenses while supporting Fairmount's commitment to care for God's creation.
